

What to Bring 2021

When you show up in the morning (at 7:30!) you are committing to a full day of work. So you need to have everything you need with you!

What to wear: work clothes of limited sentimental value – you will be working!

- √ mask/face covering
- √ long, sturdy pants (i.e. jeans without major holes)
- √ work t-shirt (not tank-top – must have sleeves)
- √ sturdy boots, work boots preferred (if you are buying them new, start breaking them in now.)
- √ a hat or bandana
- √ rugged work gloves (not garden gloves)

Tools: need them to get the work done! You need at least:

- √ a hammer (14-16 oz claw hammer, either plastic or wood handle is fine)
- √ a 20' or longer tape measure
- √ 1-2 pencil(s) or sharpies
- √ retractable utility knife
- √ a tool belt

(optional, but really useful) – a cordless drill/driver (with ***charged*** batteries!)

All need to be marked in a way that allows them to be returned to you if we find them laying around at the end of the day! If you have other tools that would be useful, feel free to bring them – as long as your GL can get them in their car!

What else do you need?

- √ A full belly. Eat a hearty breakfast before you arrive. Lunch is a long way off.
- √ A packed lunch. These will go in the cooler until lunchtime. Snacks welcome, too.
- √ A full water/gatorade bottle. You can't possibly drink too much water. Your crew will have a water jug to refill from.
- √ Sunscreen
- √ A readiness to work hard and serve

Do NOT bring:

- Weapons, drugs, alcohol or any vaping paraphernalia. These are restricted at all times from all ASP activities.
